

# GET YOUR PHONE READY TO SELL:

## MOTOROLA MOTO X STYLE/PLAY

Music, memories and money. Your entire life is right there on your phone, easily accessible with just a few swipes. With three simple steps, we'll help you transfer your valuable information and memories, erase data and get that old phone ready to sell.

Inspired by Outerwall™

# REMOVE your data

Think of all the music you've collected on your phone over the years. All those thousands of pictures and videos, your favorite games, the apps you can't live without, not to mention your contacts and emails. You've got a lot of data on your phone. Let's talk about relocating it, so it's ready and waiting to be transferred to your new phone.

## Backing up

Backing up your Moto X Play/Style makes it possible to transfer your old data to your new phone

## Before you start

Make sure to save and close your files before copying them from your phone to your computer

## Backing up data

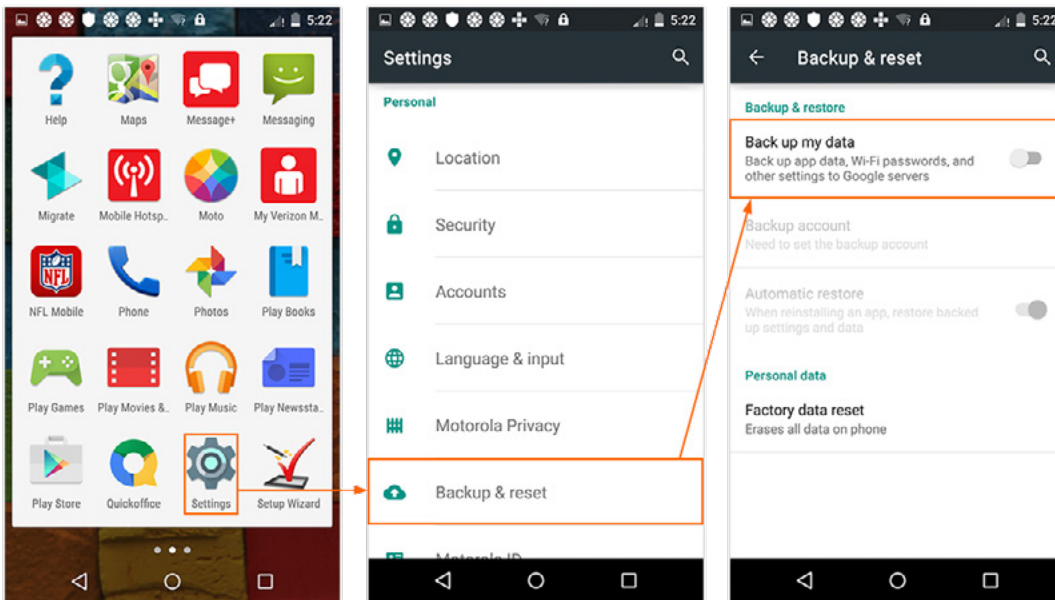

Back up Wifi passwords, bookmarks, other settings and app data, saving all copies on Google servers. Here's how:

- From **Home**, select **Apps > Settings > Backup & reset > Backup my data**

## Back up accounts

Choose the account associated with your phone

- From **Home**, select **Apps > Settings > Backup & reset > Backup account** to choose an account

# RELEASE your phone from your carrier

Now that you've completed the important step of **backing up your data**, it's time to disconnect your phone and make sure your account is paid off.

## Make the call

**Call your carrier** and disconnect service to your old Moto X Play/Style. Before you do, make sure:

- No time is left on your contract
- No fees will be charged if you cancel your account
- All bills have been paid

## RESET your Moto X Play/Style

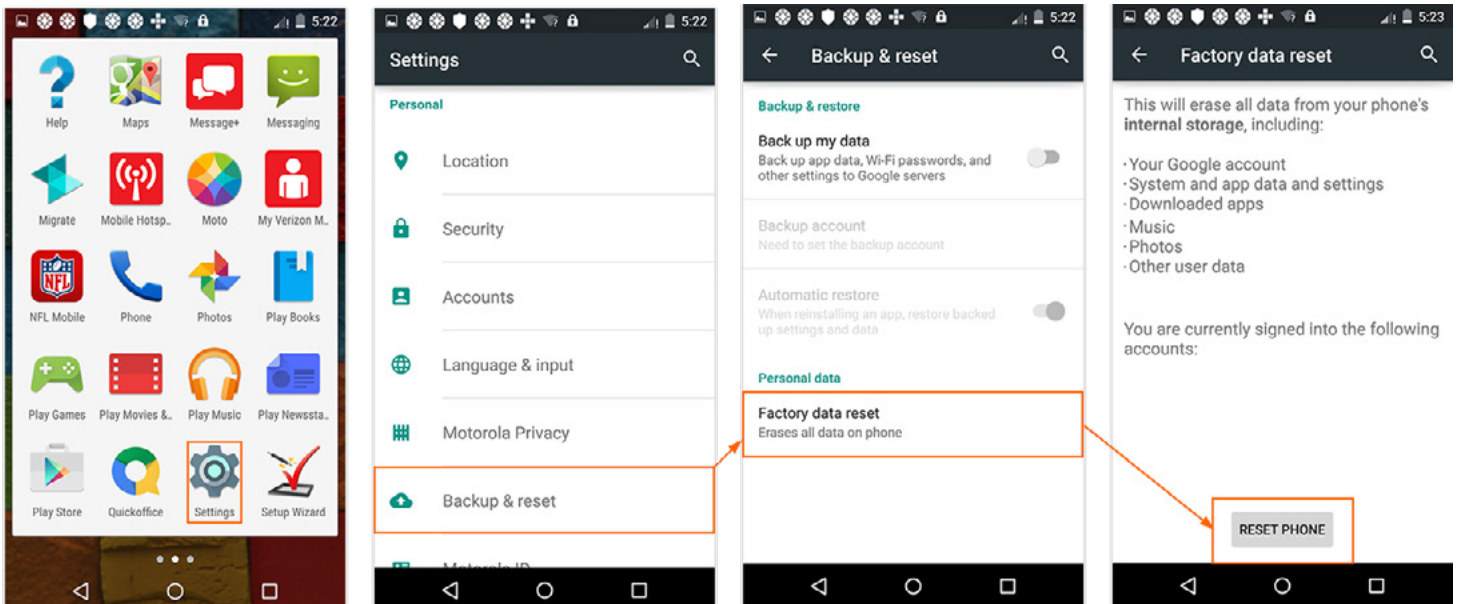

You're in the final stretch of getting your old Moto X Play/Style ready to sell. You've **backed up all the data you want to keep** and **called your carrier to disconnect your old phone**. The last step is wiping the slate clean by resetting your old phone.<sup>1</sup>

Your phone's **Factory Data Reset** is a tool used to remove everything that was imported, added or installed on the phone. **Good to know: Everything will be deleted**, so before you get started, make sure you've backed up all data you want to keep.

## Ready, Set, Reset

- From the **Home** screen select **Apps > Settings > Backup & reset > Factory data reset > Reset phone > Erase everything**

*This will cause the device to reset and start to factory reset*

## Charge your phone

This is the very last step to preparing your Moto X Play/Style ready to sell

Congratulations! Your phone is now clean as a whistle (data-wise, anyway). You've taken the important steps to make sure your information stays with you, and all your photos, videos, apps and music are backed up and ready to be transferred to your new phone. Now you can sell that old phone with confidence.

Like the idea of making instant cash on your old phone? Go to an ecoATM® kiosk, where you can recycle it for cash on the spot. Charge your phone and find an ecoATM® kiosk location near you ([ecoatm.com/locator](http://ecoatm.com/locator))
